## SUMMARY

I am a creative and dedicated developer with a passion for problem solving. I enjoy writing clean and well tested code. I'm searching for an environment where I can collaborate with and contribute to a team while continuing to grow as a programmer. I appreciate teams that value collaboration and agility.

## SKILLS

**Languages:** Ruby, HTML, CSS, Javascript, SQL

**Frameworks/libraries:** Rails, Grape, Solr, Docker, Vue, Angular, AWS S3/Dynamodb/Cognito/Athena

**Databases:** MySQL, PostgreSQL, Oracle

## EXPERIENCE

### **SESAC, Remote** – *Software Developer*

April 2018 – PRESENT

- Primary tech stacks: Ruby/Grape backend microservices with Vue micro frontends
- Our applications provide a variety of tools for internal business, publishers, song writers and composers
- Implement Docker for local development, QA and production environments
- Contributed to uploading MYSQL and Oracle data to Apache Solr
- Built a custom Solr search that allows users to search our song & recording databases
- Led a project on creating a Braintree/Paypal payment microservice
- Implemented AWS cognito on both the client and server side for our songfile application
- Created reusable Vue components for our hfa-website and songfile application

## EDUCATION

### **The New School, New York, NY** – *Journalism & Design*

2016

### **Turing School of Software & Design, Denver, CO** – *Software Engineering*

2017
